*Work Session – June 13, 2017 – Following Special Meeting – Training Room*

*Regular Council Meeting – June 20, 2017 – 5:00 PM – Council Chambers*

*Work Session – June 27, 2017 – 5:00 PM – Training Room*

## **Department Update:**

### **Public Works Department – Jason Stordahl**

**Streets Improvement Project:** The contractor is hoping to finish the concrete repairs (curb and gutter & approach work) for the soon to be seal coated areas within the next two weeks. They plan on applying the seal coat at the end of this month.

### **Interconnect Project:**

Liner installation is estimated to be complete by early next week, pending weather. The contractor started to place the sand layer over some of the already lined areas.

### **Wastewater/Stormwater:**

The Annual Sewer Cleaning /Televising project continues. We found a couple of minor problem areas within the Campground, and a more substantial problem area on 5<sup>th</sup> Ave. NE. There was a separation in the sanitary sewer pipe on 5<sup>th</sup>. It wasn't causing any sewer back up issues, but has hollowed out an area under the street. It will be repaired as soon as possible.

### **Loader:**

Our new loader and push plow were delivered last week. RDO Equipment came to the shop and conducted a walk around/training session.
