These rates are subject to monthly adjustments. At the Department's discretion, the above rate may be increased or decreased by 0.1 mill per KWH for each 0.1 mill, or major fraction thereof, by which the City's total average purchased power cost changes.

Adjustment for over or under purchases of demand

Demand charges are based on projected demand use by American Crystal Sugar. Cumulative annual winter demand used in excess of 116,500 kW would be billed at \$10.20 per kW. Cumulative annual winter demand use below the projected quantity would be credited back at \$9.91 per kW.

In no case will the credit issued for under purchases of demand or energy exceed the associated avoided wholesale power cost.

System Additions

Under this rate, any additional facilities which must be constructed by the East Grand Forks

Water and Light to serve load growth or additional stand-by at American Crystal Sugar may be paid for by the Department with the cost to be recovered through the facility charge OR by an upfront charge to American Crystal Sugar based on the estimated project cost. At the completion of the project, a credit or a bill will be issued to American Crystal Sugar for the work based on the final completed project costs.

This rate is offered on the condition that American Crystal Sugar continue to work closely with East Grand Forks in planning for supplemental wholesale power supplies for future years.

CITY OF EAST GRAND FORKS, MN FUND BALANCE POLICY

Adopted December 6, 2011

I. PURPOSE

The City understands it has a responsibility to maintain prudent financial operations to ensure stable city operations for the benefit of city residents and businesses. Fund balance reserves are an important component in ensuring the overall financial health of a community, by giving the City cushion to meet contingency or cash-flow timing needs. The Office of the State Auditor recommends that at year-end, local governments maintain an unassigned fund balance in their general fund and special revenue funds of approximately 35 to 50% of fund operating revenues, or no less than five months of operating expenditures. While the bond rating agencies do not have recommended fund balance levels, the agencies look favorably on larger fund balances, which protect against contingencies and cash flow needs.

The purpose of this policy is to also establish specific guidelines the City of East Grand Forks will use to classify fund balances into a categories based primarily on the extent to which the City is bound to honor constraints on the specific purposes for which amounts in these funds can be spent.

II. CLASSIFICATION OF FUND BALANCE/PROCEDURES

1. Nonspendable

- This category includes fund balance that cannot be spent because it is either (i) not in spendable form or (ii) is legally or contractually required to be maintained intact. Examples include inventories and prepaid amounts.

2. Restricted

- Fund balance should be reported as restricted when constraints placed on those resources are either (i) externally imposed by creditors, grantors, contributors, or laws or regulations of other governments or (ii) imposed by law through constitutional provisions or enabling legislation.

3. Committed

- Fund balance that can only be used for specific purposes pursuant to constraints imposed by formal action of the government's highest level of decision-making authority. The committed amounts cannot be used for any other purpose unless the government removes or changes the specified use by taking the same type of action it employed to commit those amounts.
- The City's highest level of decision making authority (City Council) will annually or as deemed necessary commit specific revenue sources for specified purposes by resolution. This formal action must occur prior to the end of the reporting period, however, the amount to be subject to the constraint, may be determined in the subsequent period.
- To remove the constraint on specified use of committed resources the City Council shall pass a resolution

4. Assigned

- Amounts that are constrained by the government's intent to use for specified purposes, but are neither restricted nor committed. Assigned fund balance in the General fund includes amounts that are intended to be used for specific purposes.
- The City Council has delegated the authority to assign and remove assignments of fund balance amounts for specified purposes to the **Finance Director**.

5. Unassigned

- Unassigned fund balance represents the residual classification for the General fund. Includes amounts that have not been assigned to other funds and that have not been restricted, committed, or assigned to specific purposes within the General fund. The General fund should be the only fund that reports a positive unassigned fund balance amount.

The City will maintain an unrestricted fund balance in the General fund of an amount not less than 20% of the next year's budgeted expenditures of the General fund. This will assist in maintaining an adequate level of fund balance to provide for cash flow requirements and contingency needs because major revenues, including property taxes and other government aids are received in the second half of the City's fiscal year.

- i. If spending unrestricted fund balance in designated circumstances has reduced unrestricted fund balance to a point below the minimum targeted level, as noted above, the replenishment will be within five years.

III. STABILIZATION ARRANGEMENTS

Stabilization arrangements are defined as formally setting aside amounts for use in emergency situations or when revenue shortages or budgetary imbalances arise.

The City will set aside amounts by resolution as deemed necessary that can only be expended when certain specific circumstances exist. The resolution will identify and describe the specific circumstances under which a need for stabilization arises. The need for stabilization will only be utilized for situations that are not expected to occur routinely.

IV. MONITORING AND REPORTING

The **City Administrator** and **Finance Director** shall annually prepare the status of fund balances in relation to this policy and present to the City Council in conjunction with the development of the annual budget.

When both restricted and unrestricted resources are available for use, it is the City's policy to first use restricted resources, and then use unrestricted resources as they are needed.

When committed, assigned or unassigned resources are available for use, it is the City's policy to use resources in the following order; 1.) committed 2.) assigned and 3.) unassigned.

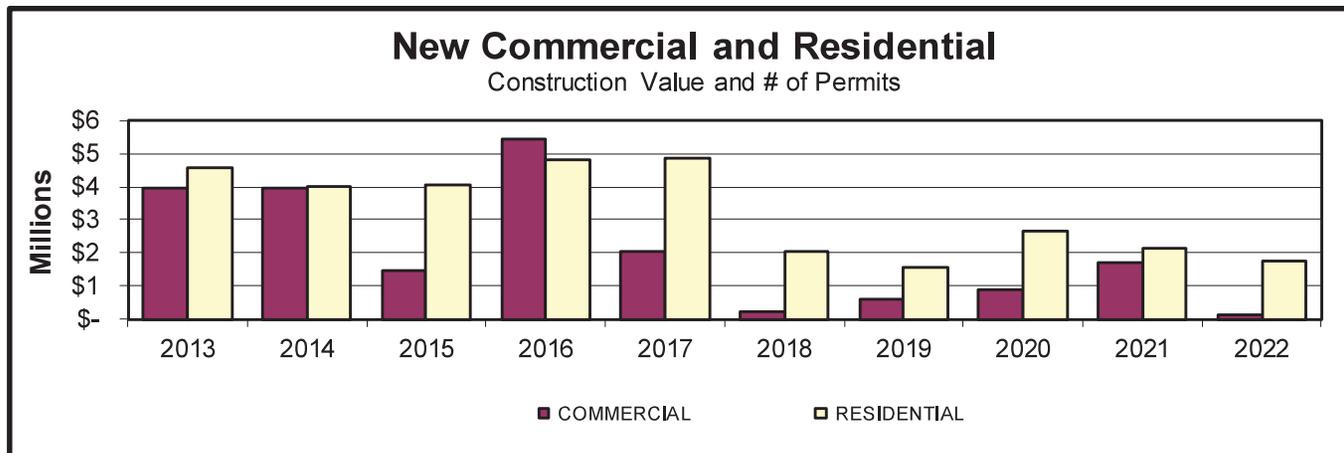

A negative residual amount may not be reported for restricted, committed, or assigned fund balances in the General fund.
