RE: Notice of Water Service Line Material Inventory

The City of East Grand Forks has completed and submitted our service line materials inventory to the Minnesota Department of Health. The service line inventory is publicly available, and you can check the materials for your service line by visiting the Lead Inventory Tracking Tool (LITT) at <https://maps.umn.edu/LSL/>. You may also contact us at East Grand Forks Water and Light Department, 600 Demers Ave or by phone at 218-773-1163. To complete the service line inventory, the Minnesota Department of Health contracted with Widseth Engineering to review all available records and perform in-home inspections of service lines if necessary. As of 9/27/24 our inventory contains **8** lead, **0** galvanized lines requiring replacement, **331** unknown material, and **2645** non-lead service lines.
