## EAST GRAND FORKS WATER AND LIGHT

April 2023

### Air Source Heat Pumps

Have you looked into updating your heating and cooling equipment this year? You are not the only one! Since heating and cooling installations happened after the 1997 Flood, numerous local residents are currently looking for new equipment options. Ask your local contractor about Air Source Heat Pump options. ASHP equipment are low cost and operates efficiently while potentially being used as both heating and cooling units. The Water and Light Department provides a \$100-\$250 rebate for ASHP installation. Check out our heating and cooling rebate form on [waterandlight.info](http://waterandlight.info) for more information.
